EDUCATION

2023 - PRESENT BABES-BOLYAI UNIVERSITY

- Master of Databases

2020 - 2023 BABES-BOLYAI UNIVERSITY

- Mathematics and Informatics
Bachelor's Degree

SKILLS

- Programming skills:
 - ReactJs/ReactTs(Good)
 - NextJs(Good)
 - SQL (Good)
 - Java(Good)
 - Python (Good)
 - Flask(Good)
 - FastAPI(Basic)
- Soft skills:
 - Professional attitude
 - Problem solving
 - Logical thinking
 - Teamwork
 - Attention to detail

PROFILE

A proactive graduate of the Faculty of Mathematics and Computer Science at the University of Babes-Bolyai with a strong affinity for software. Demonstrates robust leadership, teamwork, and communication skills, coupled with precise attention to detail and logical thinking. Eager to build a fulfilling career in Computer Science, contributing my skills and passion to innovative projects.

WORK EXPERIENCE

● Cicada Tehnologies, Cluj-Napoca, Romania AUGUST 2023 - PRESENT

Junior FullStack Developer(Flask/FastAPI + NextJs)

- I actively engaged in technical discussions during refinement and planning meetings.
- Embracing Agile methodologies, I provided technical solutions while refining my technical skills.

● Cicada Tehnologies, Cluj-Napoca, Romania APRIL 2023 - JULY 2023

FullStack Intern (Flask/FastAPI + NextJs)

- I delved deeper into ReactJs and NextJs, expanding my proficiency.
- Additionally, I enhanced my Python skills, gaining hands-on experience with SQL queries and cron jobs on real-world projects. Primarily focused on management and custom software projects.

● 3Pillar Global, Cluj-Napoca, Romania JULY 2022 - SEPTEMBER 2022

Frontend Intern (ReactJs)

- During my first frontend internship, I acquired foundational skills in ReactJs and engaged with experienced professionals in an American corporate setting, fostering English communication and collaborative learning.
- Acquired proficiency in Sass, leveraging its power for enhanced CSS in projects.

LANGUAGES

- English (B2)

PROJECTS

- A **Presentation Website** created with **ReactJs** that represents the official website of the Vointa Turt team, an amateur football team from Satu Mare county:
<https://github.com/Florin14/VointaTurtWebsite>
- Engaged in developing a sophisticated **E-commerce** platform using **React** with **TypeScript** on the front-end and **Spring Boot** on the back-end. Applied my skills to create a seamless, responsive, and dynamic shopping experience:
Front-end link: <https://github.com/Florin14/ecommerce-shop-fe>
Back-end link: <https://github.com/Florin14/ecommerce-shop-be>
- Crafted my **personalized portfolio** application using **ReactJs** and **Sass**, showcasing my skills in web development. Implemented a sleek and responsive design for an engaging presentation of my projects and capabilities:
<https://github.com/Florin14/florin-zimbru>
- A **Social Network App** made by using Java & XML, this app helped me learn new things and put in practice most of the knowledge gained during university:
<https://github.com/Florin14/Social-Network>
